

EDUC9150 : Introduction to Educational Research

This course is designed to introduce students to the information and skills needed to critique, conduct, and report research in education. Students will be introduced to the concepts of research question development, topic exploration, structure and searching of online databases, use of the internet and the world wide web, critical evaluation of literature in the disciplines, and creation of annotated bibliographies. Upon completing the course, students will have produced an initial literature review using self-selected research articles.
