

Enrollment Status - Undergraduates

Active Status – A student who has been admitted to a Professional Studies program and is enrolled in at least one course.

Inactive Status – A student who does not register for a course applicable to the degree for three consecutive semesters will be removed from active status and must make arrangements with the program director to regain active status. This policy does not apply to students who are not enrolled due to disciplinary reasons.

Continuous Enrollment – Those students who have completed all coursework but have not completed all requirements for a program must be continuously enrolled in a minimum of 1 credit hour to retain access to University and faculty services.
